

Fresno Metropolitan Flood Control District

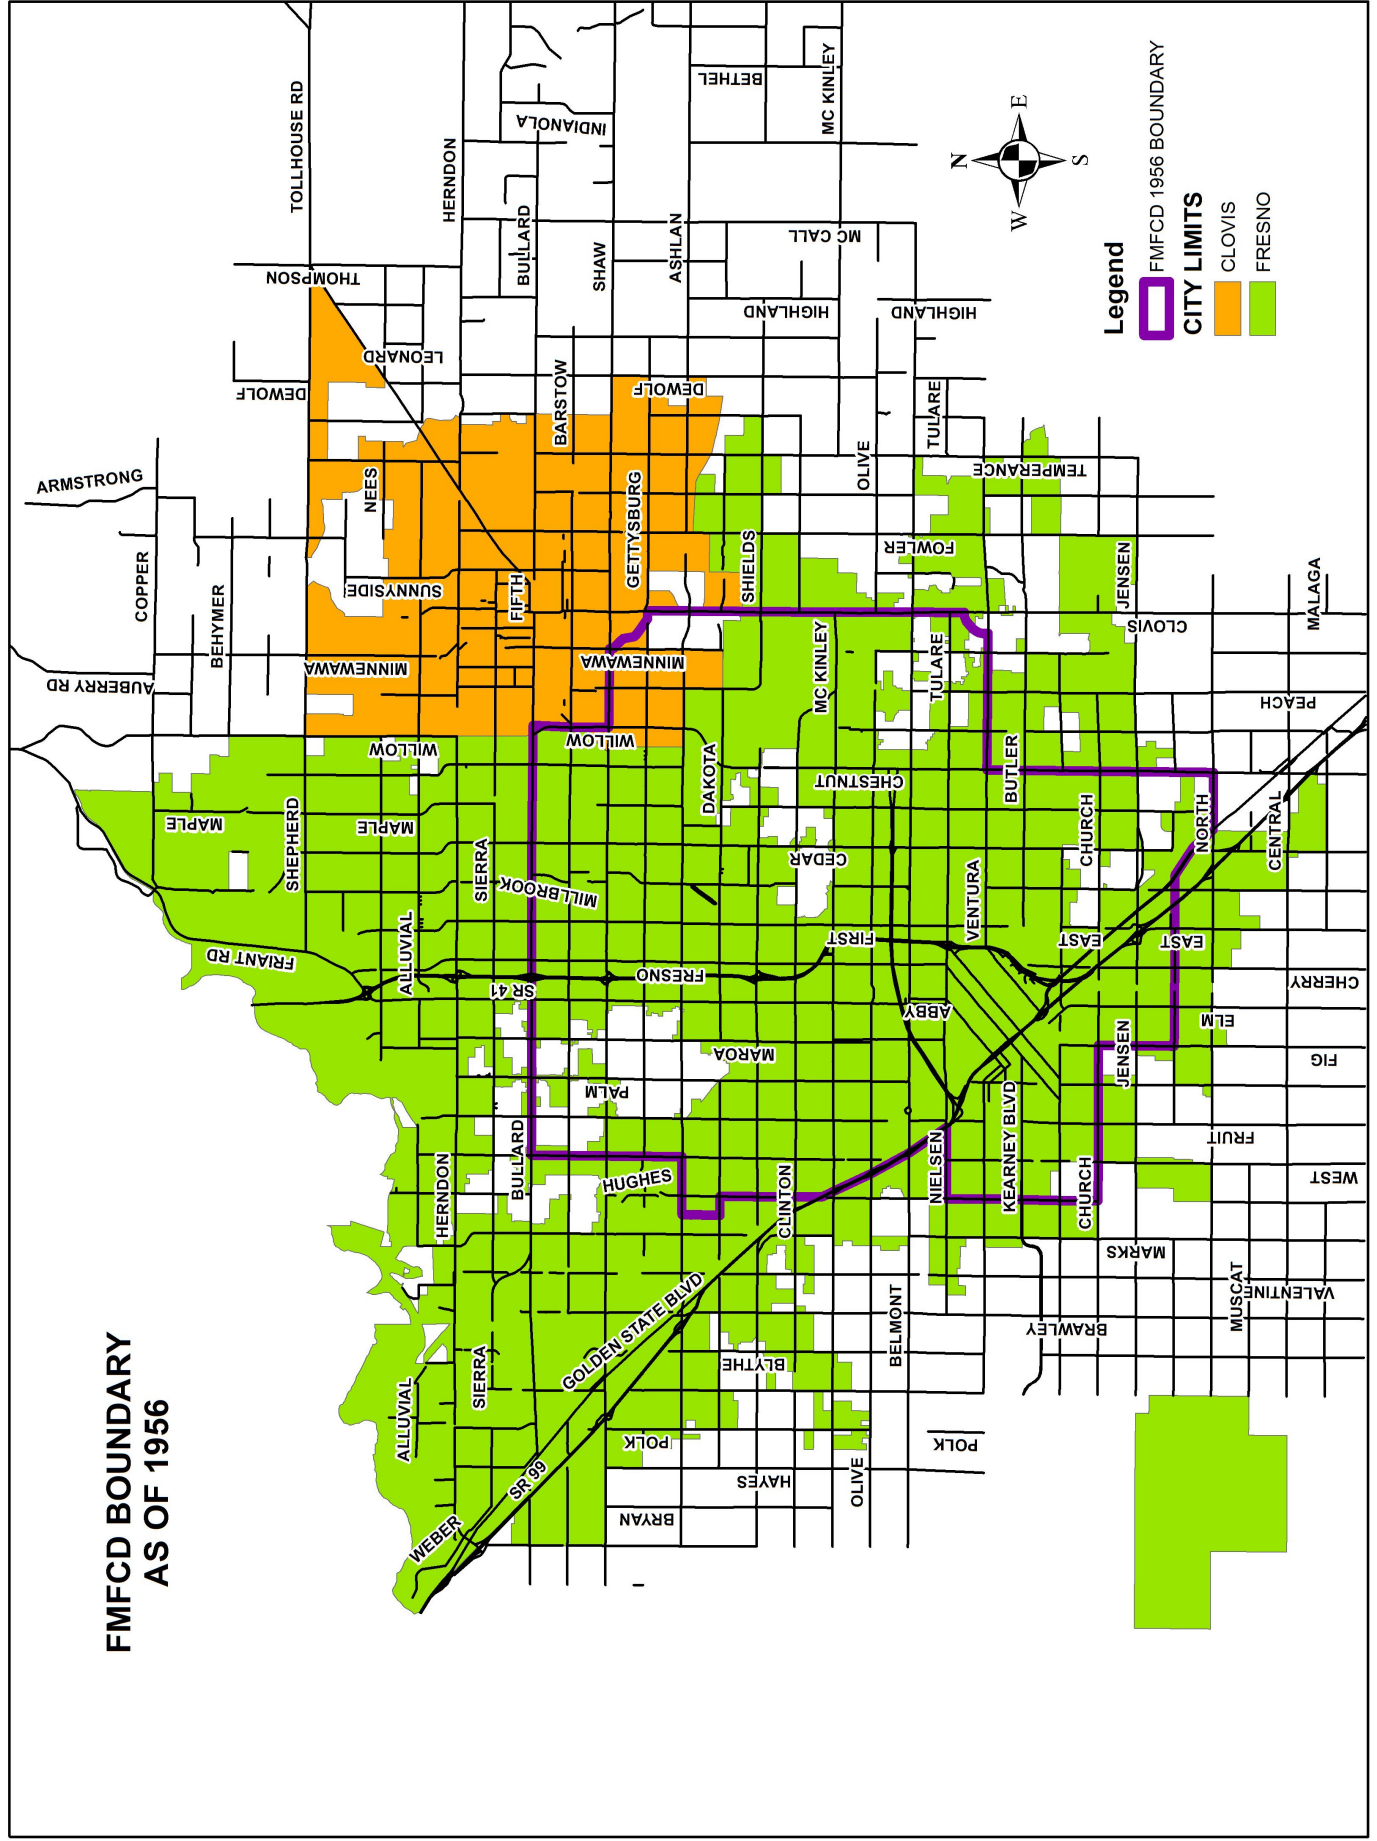

District Services

**Presented by
Wendell Lum, Master Planning & Special Projects Manager
Fresno Metropolitan Flood Control District**

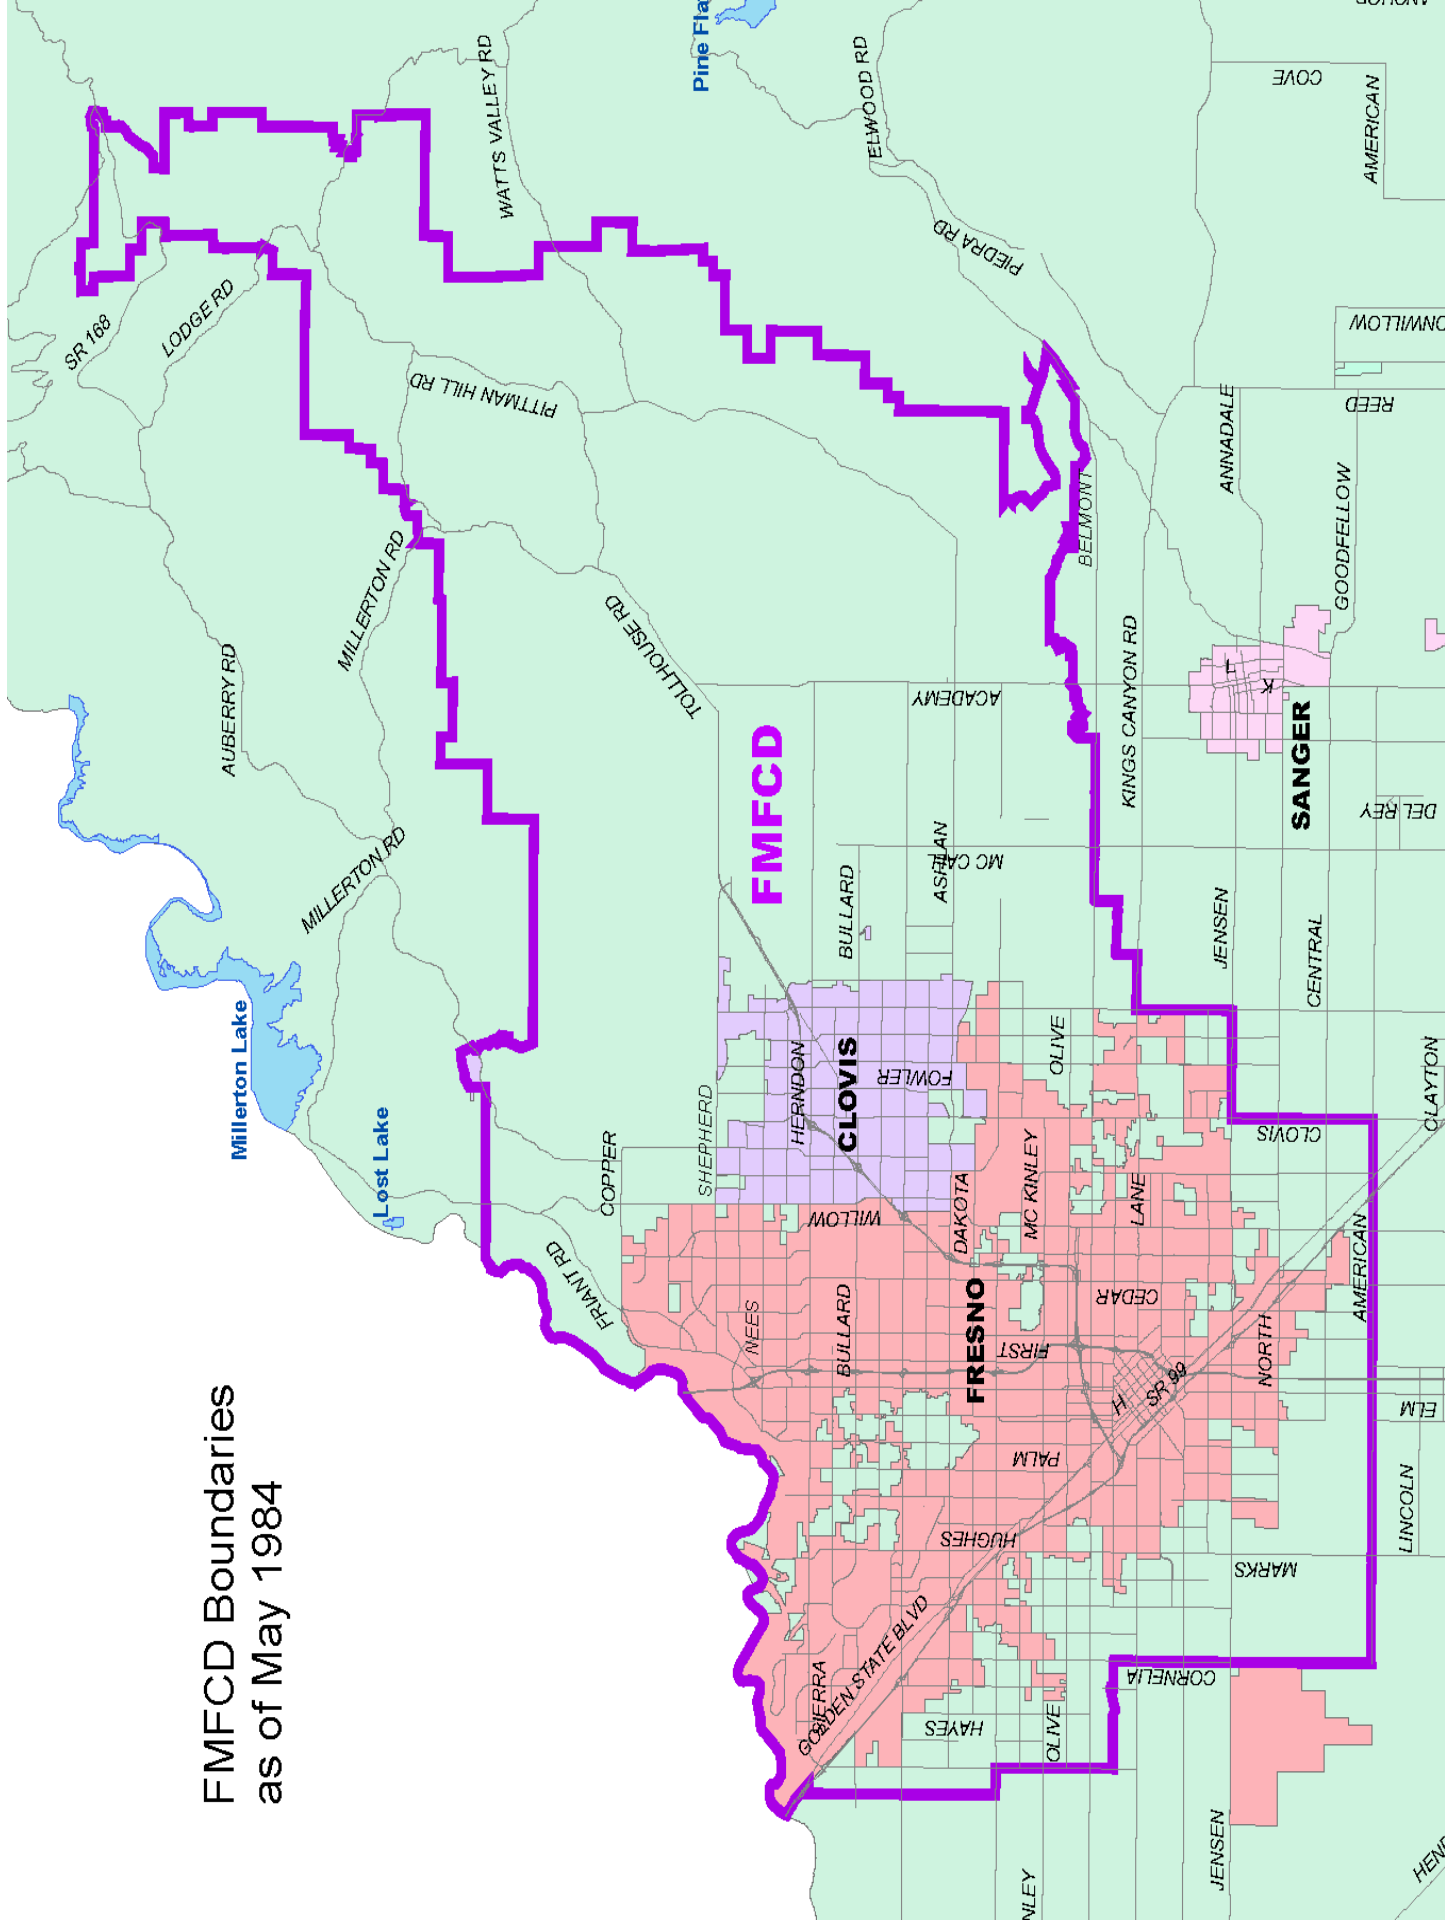

History of District

- Created in 1956
- Formed by the voters to address local drainage needs
- Drainage systems in original District Service Area planned and implemented
- Funding provided through assessments to Property Owners and significant General Fund/Property Tax Subsidy
- Proposition 13 required the full funding of system cost through drainage fees
